**CryoVation Marks 10<sup>th</sup> Anniversary**  
*Manufacturer has become a leader in cylinder fill plant equipment*

FORT MYERS, Fla. (June 24, 2010) – CryoVation [www.cryovation.com](http://www.cryovation.com) marks its 10<sup>th</sup> anniversary in July, celebrating a decade of success that started with a small parts order and evolved into an international manufacturing business recognized as an industry leader in cylinder fill plant equipment.

“It’s been an incredible, fast-paced decade,” said CryoVation founder Ric Boyd, who has worked in the industrial and specialty gas industry for more than 39 years. “There has been tremendous change and technological advancement in the industry, and we’ve worked hard to stay on the front edge of that. We look forward to the next 10 years of finding ways to meet our customers’ need for filling systems that provide them with the highest production and best value.”

CryoVation designs and manufactures complete fill plant systems and advanced cylinder filling equipment for companies around the world. The company has grown to three locations, in Florida, New Jersey and Indiana; and has a skilled team that includes Boyd’s two sons and daughter and a sales/technical staff with more than 80 combined years of experience in the industry.

The company continues to innovate and manufacture new equipment based on customer needs. It recently unveiled new automated control systems and industrial gas control panels.
