CryoVation Launches New Web Site
Pages feature clean navigation and product information downloads

FORT MYERS, Fla. (April 22, 2010) – CryoVation, www.cryovation.com, has launched a new web site featuring an updated design, simple navigation and regularly updated content that will make it easier for customers to search product listings, learn about training classes and obtain product materials.

Customers can browse products and download individual product spec sheets and equipment brochures. A complete equipment and parts catalog will be available soon for download.

The website also features links on the home page to CryoWheels, a blog that CryoVation hosts for customers and business partners who are passionate about car collecting and motorcycle riding, and to CryoVation product videos on YouTube.

The launch of the new web site coincides with CryoVation's 10th anniversary this year. The company was founded by Ric Boyd in 2000 and has grown to four locations that service customers worldwide.

CryoVation designs, manufactures and installs compressed gas filling systems for the industrial, specialty, medical and beverage gas industries. For more information about products and services, contact CryoVation at (239) 337-1114 or info@cryovation.com. More information is available online at www.cryovation.com. CryoVation has locations in Florida, Colorado, Indiana and New Jersey and a nationwide network of service technicians.
