## **CryoVation Moves to Larger Manufacturing Center**

FORT MYERS, Fla. (August 22, 2011) – CryoVation has relocated its New Jersey manufacturing and service facility into a larger building that features an expanded pump fabrication and repair department, new customer training center and high purity lab.

The 20,000-square-foot-center also features an office complex with workstations for visiting customers or vendors. The additional space allows the expansion of all manufacturing, but particularly the company's vaporizer and large structure business.

CryoVation is a manufacturing firm specializing in innovative cylinder filling systems. The company, with locations in Florida, Indiana and New Jersey, specializes in whole-plant systems, system upgrades and a full line of equipment and parts tailored to the needs of the industrial, specialty, medical oxygen and beverage gas industries. For information about products, services and specialty gas training classes, contact CryoVation at (239) 337-1114 or [info@cryovation.com](mailto:info@cryovation.com). More information is available online at [www.cryovation.com](http://www.cryovation.com).
