FOR IMMEDIATE RELEASE

CryoVation and Special Gas Services, Inc. Renew Contract

FORT MYERS, Fla. (May 5, 2010) – After 10 years of successful partnership, CryoVation and Special Gas Services, Inc. (SGS) have renewed their contract to jointly design and manufacture specialty gas cylinder filling systems.

CryoVation and SGS have worked together on a number of successful projects, including recently completed equipment and instrumentation in Virginia and China.

The company founders, Ric Boyd of CryoVation and Ray Borzio of SGS, also jointly developed the Special Gas Institute. Held quarterly in Florida, the weeklong institute has earned acclaim for having a just-right mix of classroom theory and hands-on laboratory training in all facets of analysis, mixing and pressure-fill techniques

CryoVation designs, manufactures and installs compressed gas cylinder filling systems for the industrial, specialty gas and medical oxygen and beverage gas industries. For more information about products and services, contact CryoVation at (239) 337-1114 or info@cryovation.com. More information is available online at www.cryovation.com. Special Gas Services, Inc. is a leading designer/consultant for specialty gas facilities for gas distributors. More information is available at www.specialgas.com or by calling (919) 621-0980.
